

# fearlessly GIRL

Fearlessly Girl is an internationally recognized leadership, empowerment and anti-bullying organization dedicated to empowering a generation of young girls to be bold, authentic leaders in their lives, schools and communities. It's a movement of real girls, redefining what is beautiful, valuable and possible.

The mission is to inspire each girl to be curious, ask questions, to be authentic, brave and totally fearless when it comes to understanding who she is, pursuing her dreams, blazing a trail, spreading kindness and being an instrumental part of the community.

This is a class filled with life tools that will help girls navigate the challenges of friendships, self-esteem, body image, social media, bullying, and cyber drama, creating a kinder Girl World and in the process enabling each girl to make her spectacular mark on the world.

There will be classroom discussions, role playing exercises and fun activities to help girls boost confidence, improve self-esteem, improve school climate and navigate the world of social media.

All girls.....Join us.....Be Fearlessly Girl.....
